EMMA HOBBS

Fairs & Exhibitions is a UK company operating in both the UK and Dubai.

The company organises Trade Exhibitions and employs twenty people in the UK office.

Emma joined Fairs & Exhibitions in June 2007 as a web developer as part of a move to become independent in web development and operation.

She was one of two people tasked with setting up this fledgling department.

She has worked hard and with success and her small team were rapidly producing high quality sites that utilised good quality and imaginative graphic images a lot of which Emma created.

Emma's time keeping and work ethic are good and she is a friendly person who integrates quickly.

The work of Emma and her colleague can be viewed at www.fairs-exhibs.com
